PROFESSIONAL SUMMARY

Aspiring Java Backend Developer with a solid foundation in Java and practical experience in Spring Boot, RESTful APIs, and SQL. Demonstrated ability to develop efficient backend systems and enhance application functionality. Proven track record of working in agile environments, with a passion for learning and applying new technologies.

SKILLS AND ACCOMPLISHMENTS

- **Programming Languages:** Java (Core, Advanced), Python (Basic)
- **Java Frameworks:** Spring Boot, Spring MVC, Hibernate
- **Web Development:** HTML, CSS, JavaScript, React
- **Database Management:** SQL, Database Design, Integration
- **Version Control:** Git, Bitbucket
- **Methodologies:** Agile (Scrum), Jira
- **Testing & Debugging:** Unit Testing, Debugging
- **Tools & Technologies:** RESTful APIs, Azure Cloud, Power BI
- **Soft Skills:** Problem-Solving, Communication, Collaboration

PROJECTS

- **Payment Integration System**
Java, Spring Boot, RESTful APIs
July 2024
 - **Overview:** Developing a secure payment integration system to facilitate communication between client and server using RESTful APIs.
 - **Current Role:** Designing and planning the system's architecture, including API endpoints and integration workflows.
 - **Technologies Used:** Java, Spring Boot, RESTful APIs.
 - **Planned Outcomes:** Aiming to enhance payment security and reduce transaction processing time, while ensuring seamless integration with existing systems.
- **Portfolio Website (<https://shamath-h-v.netlify.app/>):**
HTML, CSS, JavaScript, Netlify
November 2023
 - **Overview:** Created a personal portfolio website to showcase skills and projects.
 - **Responsibilities:** Designed and built the website focusing on responsive design and user experience; managed version control and project management using Git and GitHub.
 - **Technologies Used:** HTML, CSS, JavaScript, Netlify.
 - **Achievements:** Successfully deployed the website; planned future enhancements including a blog section and project filtering options.

EDUCATION

Bachelor of Engineering in Mechanical Engineering
SJCE College, JSSSTU, Mysuru, Karnataka
Graduation Year: 2023 | CGPA: 8.49

Diploma in Automobile Engineering
Smt. LV Polytechnic, Hassan, Karnataka
Graduation Year: 2020

PROFESSIONAL EXPERIENCE

Cloud Support Specialist
Spektra Systems, Bengaluru
April 2023 – October 2023

Growth path:

Cloud Support Specialist – I (Aug’2023-Oct’2023)

Intern (Apr’2023-Jul’2023)

Key Result Areas:

- Developed and maintained a wide range of lab catalogues for different technologies on the Azure platform, enhancing accessibility and usability for clients.
- Generated detailed SLA reports and conducted data analysis using Power BI, contributing to better customer support and service quality.
- Resolved complex customer issues related to cloud infrastructure and data migration, ensuring high customer satisfaction.

AREAS OF EXPOSURE

- Coding Development
- Requirement Gathering
- Root Cause Analysis
- Project Management
- Database Management
- Performance Optimization

Personal Details:

Address : Hassan-573214, Karnataka

Date of Birth : 26th January 2000

Languages Known: English, Hindi, Kannada, and German (A1)
